## Education

Cowley County  
Community College  
Associates of Arts  
Management Information  
Systems  
2015

K-State University  
Pursuing a Bachelor's in  
Computer Science

## Primary Skills

- Ability to program in Java, C#, C, GO, and Python with numerous IDE's and forms of source control
- Ability to troubleshoot Windows, Android, Android Wear, iOS, OS X and Active Directory
- Exceptional ability to work in a fast-paced environment alone or with others
- Ability to design websites using JavaScript, HTML, CSS, and other types of backend environments such as Rails, Clojure, and PHP
- Broad knowledge of computers and networks

## About Me

I am a hard worker that is very passionate about computers and technology. I built my first computer when I was 16 and quickly created my first website. My freelance work includes billboard sign design, web and email cloud services for small businesses, and bots for automating repetitive tasks.
